MESSAGE FROM FOUNDER

Pravin Parmar

Founder/CEO, VyapaarJagat.com & Fempreneur

LET'S ALL FULLY #EMBRACEEQUITY

From Falguni Nayar to Kiran Mazumdar-Shaw and Vineeta Singh, women have proven that they've got what it takes to blaze a trail on their own two feet. Development is about vision and determination, but it's also about embracing equity so that gifted women who have something to offer the world do not fall behind. The Fempreuner 2023 is all about recognizing and rewarding the accomplishments of women entrepreneurs. Let us join together in celebrating our Indian superwomen who are constantly raising the stakes and climbing higher!

Our Honorable Prime Minister Narendra Modi has launched initiatives such as Stand Up India to promote the growth of women entrepreneurs, to make India an Aatma Nirbhar Bharat in the coming years. VyapaarJagat is committed to upholding this mission of women entrepreneurs. We can transform India into a self-sufficient economy and a major global industrial powerhouse by recognizing and promoting young Indian women entrepreneurs to produce products and services locally and shifting the focus to India's resources and abilities.

Through today, we hope our participants and audience members all leave better informed and more empowered than they felt coming in. Stay tuned for illuminating discussions and a multitude of well-earned awards. We are proud to be holding the conference in Ahmedabad in celebration of International Women's Day, and here's to a smashing success!

"If we want to grow, we need to embrace equity. We must create an environment in which everyone starts at the same point: a race in which some run with a headstart and others run with sandbags is fundamentally unfair. That is why we need to create more women entrepreneurs and provide them with the resources they need to succeed."
