Workday in India

Workday was launched for HR users in April 2013, with the phasing out of PeopleSoft in March 13. While there was excitement over the new system, we also had concerns on how we would manage such a herculean task.

India's C&B and HR Operations team spearheaded this project under the guidance of the Group HRIS project team. Regular training sessions through webinars and teleconference helped the core team in India better understand Workday.
